Education

General Assembly

October 2022

- Certificate of Completion, Software Engineer

University of Missouri - Kansas City

December 2021

- BS Accounting & BBA w/ emphasis in Health Administration

Skills

Frontend

Jquery, HTML, CSS

Backend

Express, EJS, MongoDB, Mongoose, Heroku

Programming

JavaScript, Python, React, Node.js, Git

Experience

General Assembly

July 2022 - October 2022

Software Engineering Fellow

- Completed a 12 week intensive program that gave students the tools to build websites and fullstack applications but most importantly further our problem solving abilities.
- Project 1: Personal website that shows background information, links to social media, and a carousel of projects. Utilized: **JavaScript, JQuery, HTML, CSS**
- Project 2: Full stack application with multiple restful routes that lets users plan a full itinerary with different locations and activities. Utilized: **Express, EJS, MongoDB, Mongoose, Atlas, Heroku, JavaScript, HTML, CSS**
- Project 3: Full **MERN** stack application built with a partner that lets the user organize their book collection with titles, images, and relevant links and data for each book. Deployed a **React** frontend and **Express** backend to two separate instances in **Heroku**.

Forvis

January 2022 - June 2022

Tax Associate

- Developed a keen eye for patterns and inconsistencies when working through returns to catch mistakes and save clients money
- Communicated with partners during tax season in creating a strategic plan for clients in delivering timely tax return paperwork and updates.

Central Bank of the Midwest

July 2018 – January 2021

Bank Teller

- Oversaw closing tasks such as balancing drawers, closing all vaults, and ensuring all lights are off making it possible for employees to leave on time or earlier as often as six days a week.
- Achieved customer success by assisting ~35 clients daily, in directing them to the correct resources to expand on business and personal savings.
